Single Reels Productions

ABOUT ME

I am a 23-year-old self-taught audio engineer from Charleston, West Virginia. I am a fast learner and a sociable person who strives for excellence in everything I do, as well as being a cofounder of a production company **Single Reels Productions**. I am technically proficient in audio engineering, from microphone to master track I can capture and produce professional audio consistently and to any specifications.

- Cubase 12 Audio Software
- DaVinci Resolve Video Software
- Storyteller
- Camera composition
- Extremely Sociable
- Self taught musician
- Ambitious & Passionate
- Audio Engineering/Sound Design
- Sound capture & Mixing

ACTIVITIES

I am currently working as a recordist/mixer for a local band as well as maintaining my day job as a janitor at Overbrook Elementary School. Recently, I have been prioritizing developing my skills and networking with like-minded individuals to help build a creative community and collaborate. In my free time I enjoy learning about the art of filmmaking and audio production, including working on projects to improve upon my skill set. I also enjoy playing instruments and with other musicians or finding an interesting story to enjoy.
